

# The Fourth European Conference on Wood Modification

Norra Latin City Conference Centre,  
Stockholm, Sweden  
27-29<sup>th</sup> April 2009

Edited by

F. Englund, C.A.S. Hill, H. Militz and B.K. Segerholm

Secretariat:

SP Technical Research Institute of Sweden  
Wood Technology  
Att.: FE  
Box 5609  
SE-114 86 Stockholm

## Table of Contents

Preface.....	v
Table of contents .....	vii
 KEYNOTE PRESENTATION 1 .....	 1
Challenges in Wood Modification Technology on the way to Practical Applications .....	3
<i>Holger Militz and Stig Lande</i>	
 ORAL SESSION 1 - COMMERCIAL ASPECTS .....	 13
The Making of a Traffic Timber Bridge of Acetylated Radiata Pine .....	15
<i>Bôke F. Tjeerdsma and Ferry Bongers</i>	
New Generation ThermoWood® - How to Take ThermoWood® to the Next Level.....	23
<i>Jukka Ala-Viikari and Duncan Mayes</i>	
A Novel Economic Large-scale Production Technology for High-quality Thermally Modified Wood .....	31
<i>Wim Willems</i>	
State-of-the-Art Kebony Factory and its Main Products .....	37
<i>Per Brynildsen and Rune Bendiktsen</i>	
 ORAL SESSION 2 - PRODUCT PERFORMANCE / MATERIAL PROPERTIES.....	 43
Mode of Action of DMDHEU Treatment against Wood Decay by White and Brown Rot Fungi.....	45
<i>Carsten Mai, Pradeep Verma, Yanjun Xie, Jens Dyckmans and Holger Militz</i>	
Enzymatic Hydrolysis of Furfurylated Scots Pine Sapwood ( <i>Pinus sylvestris</i> , L.) .....	53
<i>Thomas Mark Venås and Claus Felby</i>	
Influence of Acid Catalysts on Bending Strength of Furan Pre-polymer Modified Wood after Ageing.....	61
<i>Marina E van der Zee, Bôke F. Tjeerdsma, Hans Hoydonck and Rowan Jackson</i>	
Modified Wood Versus Termite Attacks: What Should Be Improved in Assessment Methodology? .....	69
<i>Magdalena Kutnik, Ivan Paulmier, Frédéric Simon and Marc Jequel</i>	

Methodology to Evaluate Efficacy and Ecotoxicology of Modified Wood.....	77
<i>Liesbeth De Vetter and Joris Van Acker</i>	
The Determination of EMC and its Effect on the Analysis of Moisture Sorption in Wood Modified with DMDHEU .....	85
<i>Andrés Dieste, Andreas Krause, Carsten Mai and Holger Militz</i>	
 ORAL SESSION 3 - CHEMICAL MODIFICATION .....	 93
The Influence of Wood Species upon the Decay Protection Mechanisms Exhibited by Anhydride Modified Woods .....	95
<i>Callum Hill and Jin Heon Kwon</i>	
Micromorphology Studies of Modified Wood Using a Surface Preparation Technique Based on UV-Laser Ablation .....	103
<i>Magnus E. P., Wålinder, Asghar Omidvar, Joachim Seltman and B. Kristoffer Segerholm</i>	
Modification of Domestic Timbers by Impregnation using Supercritical Carbon Dioxide – A Comparison.....	111
<i>Erich Jelen and Chandra Ghosh Shyamal</i>	
Evaluation of Properties of New Composite Material Obtained from Wood and Lactic Acid .....	117
<i>Marion Noël, Emmanuel Fredon, Eric Masson, Eric Mougel, Daniel Masson and Philippe Gerardin</i>	
Hydrophobicity of Mixed Acetic-Fatty Wood Esters .....	125
<i>Jerome Peydecastaing, Carlos Vaca-Garcia, Elisabeth Borredon and Silham El Kasmi</i>	
Wood Chemical Modification with Alkenyl Succinic Anhydrides Bearing an Ester Group .....	133
<i>Carlos Vaca-Garcia, Olivier Pignolet, Iona Rekarte, Oriol Munn and Elisabeth Borredon</i>	
 POSTER SESSION 1 - THERMAL MODIFICATION.....	 139
Peculiarities of the Thermal Modification of Hardwood .....	141
<i>Bruno Andersons, Ingeborga Andersone, Vladimirs Biziks, I. Irbe, Juris Grininsh and Kaspars Zudrags</i>	
Influence of Combined Hydro-Thermal Treatment on Aesthetical Properties of Turkey Oak ( <i>Quercus cerris</i> L.) .....	147
<i>Luigi Todaro, Luigi Zuccaro, Antonio Scopa and Nicola Moretti</i>	

Manufacturing and Properties of Glulam made of TMT Spruce and TMT Beech.....	151
<i>Wolfram Scheiding and Jens Gecks</i>	
Thermoflooring: Product Development and Performance .....	155
<i>Hermann Huber and Rainer Schöftner</i>	
Laboratory Tests on the Natural Durability of Six Different Wood Species after Hygrothermal Treatment.....	159
<i>Denny Ohnesorge, Andrea Tausch, Inga Krowas, Christian Huber, Gero Becker and Siegfried Fink</i>	
Moderate Thermal Treated Norway Spruce ( <i>Picea abies</i> (L.) [Karst.]) Exposed to Ground Contact in Austria for Five Years .....	165
<i>Robert Stingl, Martin Weigl, Alfred Teischinger and Christian Hansmann</i>	
Alteration of the Pore Structure of Spruce and Maple due to Thermal Treatment .....	169
<i>Mario Zauer and Alexander Pfriem</i>	
Nondestructive Evaluation of Thermally Modified Ash ( <i>Fraxinus excelsior</i> L.) by Near Infrared Spectroscopy (NIRS) .....	173
<i>Helmut Bächle, Bernhard Zimmer, Elisabeth Windeisen and Gerd Wegener</i>	
Fracture Characteristics and Properties of Thermally Modified Timber made out of Beech .....	177
<i>M. Almudena Majano Majano, Mark Hughes and José L. Fernández-Cabo</i>	
Color Change in Thermally-modified Wood and its Relationship with Property Changes .....	181
<i>Marcos M. González-Peña and Michael D. C. Hale</i>	
Density-property Relationships in Thermally Modified Wood .....	187
<i>Martin Arnold</i>	
On the Modelling of Colour Change of Thermally Treated Hardwoods during Artificial Weathering.....	191
<i>Thomas Schnabel, Bernhard Zimmer, Helmut Bächle and Alexander Petutschnigg</i>	
POSTER SESSION 2 - RESINS, COATINGS, WPC.....	195
Bioincised Wood as Substrate for Surface Modifications .....	197
<i>Christian Lehringer, Martin Arnold, Klaus Richter, Mark Schubert, Francis W.M.R. Schwarze and Holger Miltz</i>	
The Effect of Thermal Treatment using Vegetable Oils on Selected Properties of Poplar and Robinia wood .....	201
<i>Miklós Bak, Róbert Németh, László Tolvaj and Sándor Molnár,</i>	

Potential of Water Wax Emulsions for Improvement of Wood Performance .....	205
<i>Boštjan Lesar, Franc Pohleven and Miha Humar</i>	
Capillary Water Uptake and Mechanical Properties of Wax Soaked Scots Pine.....	209
<i>Gunthard Scholz, Andreas Krause and Holger Militz</i>	
Novel Coil-coating Concept for Modified Wood .....	213
<i>Katarina Johansson, Ylva Kärrfelt and Mats Johansson</i>	
Sol-Gel Coating of Thermoflooring: Haptics and Performance of a new Surface Coating for Solid Wooden Flooring made of TMT .....	217
<i>Rainer Schöftner, Herfried Wiesbauer and Hans-Martin Leichtfried</i>	
Research of Application of Fast-growing Wood Species as Fillers of Polypropylene/ Wood Composites .....	221
<i>Beata Doczekalska, Magdalena Szanieck and Monika Bartkowiak</i>	
Effect of Type of Wood Source on Water Absorption and Mechanical Properties of Wood-Plastic Composites .....	227
<i>Svetlana Butylina, Tiina Huuhilo and Timo Kärki</i>	
Physical and Mechanical Properties of Thermally Modified Aspen Wood.....	231
<i>Carl Tremblay and Jean Baribeault</i>	
Improvement of Interfacial Bonding of WPC Based on Various Maleic Acid Anhydride Pre-treatments .....	235
<i>Timo Grüneberg, Andreas Krause, Carsten Mai and Holger Militz,</i>	
Acetylation to Minimize Water Uptake and Deformation of High Wood Content WPC .....	239
<i>B. Kristoffer Segerholm, Asghar Omidvar and Magnus E. P. Wälinder</i>	
 ORAL SESSION 4 - SURFACE TREATMENTS .....	 243
Weathering and Photostability of Wood Modified by Aromatic Vinyl Esters .....	245
<i>Gilles Sèbe, Mohamed Jebrane, Ian Cullis and Philip D Evans</i>	
Natural Weathering of Scots Pine ( <i>Pinus sylvestris</i> L.) Wood Modified by Functionalized Commercial Silicone Emulsions .....	253
<i>Shyamal C Ghosh, Holger Militz and Carsten Mai</i>	
The Bonding of Modified Wood using Wood Welding Techniques .....	261
<i>Dennis Jones and Antonio Pizzi</i>	
Water-Repellent Coatings on Wood Surfaces Generated by a Dielectric Barrier Discharge Plasma Jet at Atmospheric Pressure .....	269
<i>Georg Avramidis, Arndt Wolkenhauer, Botao Zhen, Holger Militz, and Wolfgang Viöl</i>	

Modification of Wood Surfaces by UV Laser Induced Photografting.....	277
<i>Clay Dodson, Armando G. McDonald and David McIlroy</i>	
ORAL SESSION 5 – MARKET REQUIREMENTS, COMMERCIAL ASPECTS II.....	283
Products Meeting Needs - Applying Wood Modification to its Fullest Potential .....	285
<i>Dennis Jones, Julia Carmo, Lina Nunes and Edo Kegel</i>	
Development of the Endura concept .....	295
<i>Jan Huizer</i>	
Introduction of Accoya® Wood on the Market – Technical Aspects.....	301
<i>Ferry Bongers, Matt Roberts, Hal Stebbins and Roger Rowell</i>	
Evaluation of Acetylated Wood for International Code Council-Evaluation Services Listing.....	311
<i>Sharon M. Cline and Craig R. McIntyre</i>	
The Right Way of Using Modified Wood Products for Windows.....	319
<i>Odette Moarcas and Andreas Krause</i>	
ORAL SESSION 6 - THERMAL MODIFICATION.....	327
Experiences and Environmental Aspects of Thermal Modified Timber in Novel Noise Barrier Elements along a Motorway in Austria .....	329
<i>Hermann Huber, Jose L. Fernandez-Cabo, Marloes Caduff, Hans-Jörg Althaus and Rainer Schöftner</i>	
Mechanism of Strength Loss in Heat Treated Softwoods.....	337
<i>Colin Birkinshaw and Seamus Dolan</i>	
Emissions from Thermally Modified Beech, their Reduction by Solvent Extraction and Fungicidal Effect of the Organic Solvent Extracts.....	345
<i>Jana Peters and Alexander Pfriem</i>	
Combined Hydro-Thermo-Mechanical Modification (CHTM) as an Innovation in Mechanical Wood Modification.....	353
<i>Behbood Mohebbi, Hoori Sharifnia-Dizboni and Saeed Kazemi-Najafi</i>	
Alteration of the Unsteady Sorption Behaviour of Spruce and Maple due to Thermal Treatment .....	363
<i>Alexander Pfriem and Mario Zauer</i>	
Thermal Treatment of Wood Poles and Lumber for Distribution Network.....	371
<i>Louis Gastonguay, Duygu Kocaeffe, Sandor Poncsak, Ramdane Younsi and Yasar Kocaeffe</i>	

Thermally Modified Beech as a Structural Material: Allocation to European Strength-Classes and Relevant Grading Procedures .....	379
<i>Robert Widmann</i>	

POSTER SESSION 3A - DENSIFICATION, CHEMICAL MODIFICATION AND OTHERS ..... 387

Nanocarriers to Modify the Properties of Porous Materials .....	389
<i>S.M. Mendoza, S.M., J. Eversdijk, J., C.H.A. Rentrop, M.F. Sailer, H.R. Fischer, D.Benz and W.J. Homan</i>	

Eliminating Set-recovery in Densified Wood using a Steam Heat-treatment Process ...	393
<i>Lauri Rautkari and Mark Hughes</i>	

Modified Hybrid Poplar for Structural Composites .....	397
<i>Frederick A. Kamke and Vardan Rathi</i>	

Fire Performance Characteristics of Acetylated Wood .....	401
<i>Andris Morozovs and Edgars Buksans</i>	

Investigations on the Application of Turpentine in Wood Processes with Acid Anhydrides .....	405
<i>Beata Doczekalska</i>	

Modification of Wood with Glutaraldehyde .....	411
<i>Zefang Xiao, Yanjun Xie, Holger Militz and Carsten Mai</i>	

Furfurylation of <i>Pinus pinaster</i> Wood .....	415
<i>Bruno Esteves, Lina Nunes and Helena Pereira</i>	

Eco-efficient High Fire Performance Wood-based Products by Chemical Modification .....	419
<i>Birgit A-L. Östman and Lazaros D. Tsantaridis</i>	

Selected Properties of Beech Wood Modified by Citric Acid .....	425
<i>Bogoslav Šefc, Marin Hasan, Jelena Trajković, Radovan Despot, Matija Jug, Drago Katović, Sandra Bischof Vukušić</i>	

Performance Testing of Plywood from Beech Veneers Treated with Melamine-based Compounds .....	429
<i>Hien Mai Trinh, Holger Militz and Carsten Mai</i>	

POSTER SESSION 3B - DENSIFICATION, CHEMICAL MODIFICATION AND OTHERS .....	433
Production of Thermally Modified Veneer with High Decorative Value.....	435
<i>Alexander Pfriem, Beate Buchelt and Robert Jahn</i>	
Performance of Finger Jointed Boards and Structural Glued Laminated Timber Beams Made of Thermally Modified Beech .....	439
<i>Robert Widmann</i>	
Heat Treated Beech Veneer Plywood: Durability Against Wood Destroying Fungi using Accelerated Tests and Mechanical Analysis .....	443
<i>Imanuel Issleib, Wibke Unger and Istvan Avar</i>	
VTC Treatment and Phenol-formaldehyde Impregnation of Hybrid Poplar .....	447
<i>Frederick A. Kamke and Chris P. Gabrielli</i>	
Wettability of Hydrothermally Modified MDF .....	451
<i>Behbood Mohebbi and Peyman Fallah</i>	
Thermal Compression of Hybrid Poplar: Analysis of Extractable Components after Treatment .....	457
<i>Noridah Osman, Armando G. McDonald and Marie-Pierre Laborie</i>	
Thermally Modified Wood Protection Against UV Radiation and Water .....	461
<i>Marek Grzeńskiewicz and Maminski Mariusz</i>	
The Effect of Hygrothermal Treatment on The Transversal Deformation and End Cracks of Hornbeam Logs .....	465
<i>Abdollah Hoseinzadeh, Kazem Doosthoseini, Ali Akbar Enayati and Habibi Khademi-Eslam</i>	
Springback in Acetylated Wood Based Composites.....	469
<i>Behbood Mohebbi, Maryam Gorbani-Kokandeh and Mojtaba Soltani</i>	
Evaluation of Fracture in Acetylated Wood-Based Composites.....	475
<i>Mojtaba Soltani, Amir Homan Hemasi , Behbood Mohebbi and Habib Khademi Eslam</i>	
The Water Vapour Sorption Properties of Anhydride Modified Wood .....	479
<i>Callum Hill</i>	
On the Physical and Mechanical Properties of Gas Phase Ammonia Treated Wood.....	483
<i>Martin Weig and Ulrich Müller</i>	

KEYNOTE PRESENTATION 2 .....	487
Understanding Decay Resistance, Dimensional Stability and Strength Changes in Heat Treated and Acetylated Wood .....	489
<i>Roger M. Rowell, Rebecca E. Ibach, James McSweeney and Thomas Nilsson</i>	
ORAL SESSION 7 - ECOBUILD I.....	503
Acetylated Wood Fibres - Next Stop: Commercialisation.....	505
<i>Dennis Jones, Mark Lawther, Ronny Torgilson and Rune Simonson</i>	
Durability of Modified Wood – Laboratory vs Field Performance .....	515
<i>Gry Alfredsen and Mats Westin</i>	
Kebony - an Alternative to Teak for Boat Decking .....	523
<i>Rune Ziethen, Per Brynildsen, Stig Lande, Jarle Kristoffersen and Mats Westin</i>	
Bio-resin Bonded Acetylated OSB .....	531
<i>Emma Östmark, Mark Lawther, Rune Ziethén, Petra Nordqvist, Farideh Khabbaz, Eva Malmström and Mats Westin</i>	
KEYNOTE PRESENTATION 3 .....	539
Weathering and Photostability of Modified Wood .....	541
<i>Philip D. Evans</i>	
ORAL SESSION 8 - ECOBUILD II.....	551
Some Aspects on the Determination of Surface Chemical Composition and Wettability of Modified Wood.....	553
<i>Finn Englund, Lars Elof Bryne, Marie Ernstsson, Jukka Lausmaa and Magnus Wålinder</i>	
Compreg-type of Products by Furfurylation During Hot-pressing .....	561
<i>Mats Westin, Magdalena Sterley, Frédéric Rossi and Jean-Jérémie Hervé</i>	
Furfurylated Wood for Wooden Window Constructions .....	569
<i>Sabrina Puttmann, Andreas Krause, Annica Pilgård, Andreas Treu, Andreas and Holger Militz</i>	
Glulam Posts with Thermally Modified Spruce for Outdoor Applications .....	577
<i>Marielle Henriksson, Magdalena Sterley and Jonas Danvind</i>
